ABOUT ME

I am a self-taught full-stack JavaScript software developer. I want to help computers help people. In the last year I have leveraged my philosophy background, my interest in computers, and my capacity to self-motivate and learn quickly in order to learn coding. I am excited to continue learning and honing my skills through turning this hobby into a career.

My languages and frameworks:

- HTML5
- CSS3
- SCSS/SASS
- JavaScript
- React.js
- Node.js
- Express.js
- MongoDB
